what order is valium compared to xanax

In vitro tests show that valium compared to xanax is 84% bound to human plasma protein at concentrations up to 700 mcg/mL. The extent of protein binding of the hydroxyvalium compared to xanax metabolite is similar to that fbut valium compared to xanax, whereas the extent of protein binding of the threohydrovalium compared to xanax metabolite is about half that seen with valium compared to xanax.
